Councilmembers would like to discuss the McLean Sheridan line. Council would like to know why the City had to pay for a \$12,000 easement for a resident when McLean Sheridan owns the line. According to City attorney Mr. Lipp, he stated it was in the contract, when work is finished the line would be McLean Sheridan's. Council would like to get a second opinion from another attorney.

Another leak was detected at a different residents. They need a high pressure water pump that hooks up to the hydrant that will help locate the leak better.
